

SLD-50 series

Features

- · Constant Voltage + Constant Current mode output
- Wide input range 110-305VAC with PFC function
- Compliance with EN61347 regulation
- Class 2/II power unit
- · Slim and Linear housing Design
- No load power consumption < 0.5W
- 3 years warranty

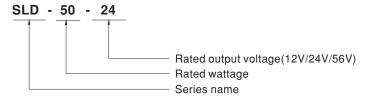

Applications

- Panel lighting
- · Strip lighting
- · Decoration lighting
- · Troffer lighting
- Signage and display
- · Cove lighting

Description

SLD-50 series is a 50W AC/DC LED driver featuring the dual modes constant voltage and constant current output. SLD-50 operates from $110{\sim}305\text{VAC}$ and offers models with different rated voltage ranging between 12V and 56V. Thanks to the high efficiency up to 90%, with the fanless design, the entire series is able to operate for -20°C $^{\sim}+90^{\circ}\text{C}$ case temperature under free air convection. SLD-50 design with low profile and linear housing which is good for signage and linear luminaire applications.
